

"INSTANT INTERNET" INSTRUCTIONS

To access the \$12.95 per day WIFI Service (128k) provided by Smart City and the Los Angeles Convention Center, please follow these instructions:

Please note the \$12.95 WIFI service is **ONLY AVAILABLE** in the public areas such as the Galaxy, Compass Café, Starbucks food courts and lobby areas.

1. With a WIFI enabled device locate the wireless network named "Instant Internet"
2. Connect to the wireless network named "Instant Internet"
3. Once connected to the "Instant Internet" network, open your Internet browser (i.e. Internet Explorer, Mozilla etc.)
4. You will automatically be redirected to the "Instant Internet" splash page, regardless of what your homepage is set to.*
5. Currently available is a \$12.95 Basic WiFi internet browsing service (Basic internet surfing and access to web based email services such as Yahoo, hotmail etc.)
6. If you're a returning user, or if you have already been assigned an account, enter the **email address you used to purchase the WiFi** in the *Login (Email)* field and your **existing password** in the *Password* field and then click **Login**
7. If you're a new user, simply scroll down to "Need Connectivity" and click on the "BUY NOW" button.
8. The next page, STEP 1, will display the purchasing instructions Name, Email, Zip, Number of days you wish to purchase at \$12.95 per day and password confirmation. Note, your email address will become your login.
9. Click on the "Next" button and you will be directed to STEP 2, a secure website where you can complete the payment and billing information. Complete all the necessary fields, and then click "Submit"
10. Your information will be verified and you will be redirected back to the Instant Internet homepage, where you can begin using the 128k Wireless service purchased.

Technical support for this service is limited to connectivity only.

** If you are automatically redirected, check to see if you have <http://about.blank> or a corporate internet site set as your homepage. If you do, navigate your browser to any public site, such as <http://www.smartcity.com>, which should cause you to be redirected to the Instant Internet splash page.*

****NOTE:** Connectivity is not guaranteed for use on all wireless devices and/or if firewalls and filters are programmed to prevent inbound access.
